

Disassembly

Log Granab Subfloor Systems for reuse.

1. Remove the parquet/carpet and any plaster from the floor.
2. Remove the chipboard/particle board from the Granab girders.
3. Remove any insulation in the floor.
4. Use the same screwing tools as for installation and unscrew the screw in each adjustment screw.
5. Unscrew the adjusting screw from the girder.
6. leave the support block and damping element in the girder.
7. Sort the girder, adjustment screw and attachment screw separately for use in future projects.
